## Key Risks

**Currency risk:** Currency exchange rates may fluctuate significantly over short periods of time and can be affected unpredictably by intervention (or the failure to intervene) by relevant governments or central banks, or by currency controls or political developments. **ESG risk:** applying an ESG screen for security selection may result in lost opportunity in a security or industry resulting in possible underperformance relative to peers. ESG screens are dependent on third-party data and errors in the data may result in the incorrect inclusion or exclusion of a security. **Smaller-company securities risk:** securities of companies with smaller market capitalisations tend to be more volatile and less liquid than securities of larger companies. **Global investment risk:** securities of certain jurisdictions may experience more rapid and extreme changes in value and may be affected by uncertainties such as international political developments, currency fluctuations and other developments in the laws and regulations of countries in which an investment may be made. **Emerging market risk:** emerging markets may be more sensitive than more mature markets to a variety of economic factors and may be less liquid than markets in the developed world. **Leverage risk:** the use of certain types of financial derivative instruments may create leverage which may increase share price volatility.

For all such applications that are sent to and received by the Hong Kong representative, the Hong Kong dealing deadline will apply and such applications will be processed by reference to the net asset value per share of the relevant class of the relevant sub-fund determined as at the close of regular trading of the NYSE (normally 4pm New York time and 10pm Luxembourg time) later that valuation day (or, if that day is not a valuation day, on the next day that is a valuation day). Applications for subscription, redemption and switching that are sent to and received by the Hong Kong representative after such Hong Kong dealing deadline (or on a day that is not a Hong Kong business day) will be forwarded to the registrar and transfer agent on the next Hong Kong business day, to be effected on the next valuation day.
