The coupon of the security is adjusted based on the principal and/or interest payments received from the underlying pool of mortgages as well as the credit quality and the actual prepayment speed of the underlying mortgages. The rate shown is the rate in effect at period end.

- ± Variable rate investment. The rate shown is the rate in effect at period end.
- Zero coupon security. The rate represents the current yield to maturity.
- The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.
- ∞ The rate represents the 7-day annualized yield at period end.

Investments in affiliates

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same investment manager. Transactions with issuers that were affiliates of the Fund at the end of the period were as follows:

| | VALUE, BEGINNING OF PERIOD | PURCHASES | SALES PROCEEDS | NET REALIZED GAINS (LOSSES) | NET CHANGE IN UNREALIZED GAINS (LOSSES) | VALUE, END OF PERIOD | SHARES, END OF PERIOD | INCOME FROM AFFILIATED SECURITIES |
|--|----------------------------------|---------------|-------------------|--------------------------------------|---|----------------------------|-----------------------------|--|
| Short-term investments Allspring Government Money Market Fund Select Class | \$666,357 | \$116,677,562 | \$(115,492,644) | \$0 | \$0 | \$1,851,275 | 1,851,275 | \$67,489 |

¹⁴⁴A The security may be resold in transactions exempt from registration, normally to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of 1933.

Notes to portfolio of investments

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Debt securities are valued at the evaluated bid price provided by an independent pricing service (e.g., taking into account various factors, including yields, maturities, or credit ratings) or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, LLC ("Allspring Funds Management"), which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management's process for determining the fair value of the portfolio of investments.

Fair valuation measurements

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of May 31, 2024:

| Total assets | \$1,851,275 | \$128,847,310 | \$0 | \$130,698,585 |
|----------------------------------|----------------------------|---|---|---------------|
| Investment companies | 1,851,275 | 0 | 0 | 1,851,275 |
