**ANDREW OWEN**

President
Allspring Funds

Dear Shareholder:

We are pleased to offer you this semi-annual report for the Allspring Discovery Mid Cap Growth Fund for the six-month period that ended March 31, 2024. Globally, stocks and bonds had positive returns for the period. However, markets were volatile as investors focused on persistently high inflation and the impact of aggressive central bank rate hikes. Riskier assets rallied as investors anticipated an end to the tight monetary policy.

For the period, U.S. stocks, based on the S&P 500 Index,¹ returned 23.48%. International stocks, as measured by the MSCI ACWI ex USA Index (Net),² gained 14.90% while the MSCI EM Index (Net) (USD),³ returned 10.42%. Among bond indexes, the Bloomberg U.S. Aggregate Bond Index⁴ returned 5.99%, the Bloomberg Global Aggregate ex-USD Index (unhedged)⁵ gained 5.71%, the Bloomberg Municipal Bond Index⁶ returned 7.48%, and the ICE BofA U.S. High Yield Index⁷ gained 8.68%.

Investors remained focused on central bank monetary policies.

The period began with a tough month for financial markets overall in October. Key global and domestic indexes all were pushed down by rising geopolitical tensions—particularly the Israel-Hamas conflict—and concerns over the Fed’s “higher for longer” monetary policy. The U.S. 10-year Treasury yield rose above 5% for the first time since 2007. Commodity prices did well as oil prices rallied in response to the prospect of oil supply disruptions from the Middle East. U.S. annualized third quarter gross domestic product (GDP) growth was estimated at a healthier-than-anticipated 4.9%. China’s GDP indicated surprisingly strong industrial production and retail sales, offset by ongoing weakness in its real estate sector.

In November, the market mood turned positive as cooling inflation inspired confidence that central banks could hold off on further rate hikes. Overall annual inflation in the U.S. fell to 3.1% in November while 12-month inflation in the U.K. and eurozone eased to 4.6% and 2.4%, respectively—far below their peak levels of mid-2022. Third quarter annualized U.S. GDP growth was raised to an estimated 5.2% while U.S. job totals rose by just below 200,000 in November, indicating a slight cooling of the labor market. All of this fresh evidence added to confidence for a U.S. soft economic landing, leading to a more buoyant mood heading into winter.

The broad year-end rally among stocks and bonds that began in November continued through December as investors became more confident that monetary policy would ease in 2024. Supporting the bubbly market mood were a series of reports confirming lower inflationary trends in the U.S. and Europe. During the period, it appeared more likely that the U.S. economy could achieve a soft landing, cooling enough to lower inflation without the pain of a recession. However, by year-end, an expectations gap developed. Capital markets priced in a total of 1.50 percentage points in federal funds rate cuts in 2024—twice as much as the three cuts of 0.25% hinted at by Fed officials.

¹ The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock’s weight in the index proportionate to its market value. You cannot invest directly in an index.

² The Morgan Stanley Capital International (MSCI) All Country World Index (ACWI) ex USA Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of developed and emerging markets, excluding the U.S. Source: MSCI. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indexes or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. You cannot invest directly in an index.

³ The MSCI Emerging Markets (EM) Index (Net) (USD) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of emerging markets. You cannot invest directly in an index.

⁴ The Bloomberg U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment-grade, U.S.-dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities, and commercial mortgage-backed securities. You cannot invest directly in an index.

⁵ The Bloomberg Global Aggregate ex-USD Index (unhedged) is an unmanaged index that provides a broad-based measure of the global investment-grade fixed-income markets excluding the U.S.-dollar-denominated debt market. You cannot invest directly in an index.

⁶ The Bloomberg Municipal Bond Index is an unmanaged index composed of long-term tax-exempt bonds with a minimum credit rating of Baa. You cannot invest directly in an index.

⁷ The ICE BofA U.S. High Yield Index is a market-capitalization-weighted index of domestic and Yankee high yield bonds. The index tracks the performance of high yield securities traded in the U.S. bond market. Returns shown are net of transaction costs beginning on July 1, 2022. You cannot invest directly in an index. Copyright 2024. ICE Data Indices, LLC. All rights reserved.

Financial market performance was mixed in January 2024 as U.S. stocks had modest gains while non-U.S. equities, particularly those in emerging markets, and fixed income assets were held back by central bank pushback on market optimism over rate cuts. Overall, optimism was supported by indications of a soft landing for the U.S. economy. Key data included a surprisingly strong gain of 353,000 jobs in January, an unemployment rate of just 3.7%, and a rise of just 3.1% in the CPI in January. However, that resilience helped push back expectations of a rate cut in March to a more likely second quarter initial move.

In February, stocks were supported by positive economic data and strong corporate earnings. However, fixed income investments were under pressure as resilient inflation led to lowered expectations on the timing of interest rate cuts. The S&P 500 Index had solid monthly gains along with emerging market equities, which benefited from a rebound in China.

The first quarter of 2024 closed with ongoing stock market momentum and a more muted sense of confidence in fixed income markets as investors adjusted to the prospect of greater-than-expected economic strength. On the flip side of that is that expectations on the timing of a long-anticipated initial Fed rate cut were pushed back from March to June and then beyond. Additionally, the number of quarter-point rate cuts forecast by the market fell from six as projected in December 2023 to two to three cuts by the end of March.

Don't let short-term uncertainty derail long-term investment goals.

Periods of investment uncertainty can present challenges, but experience has taught us that maintaining long-term investment goals can be an effective way to plan for the future. To help you create a sound strategy based on your personal goals and risk tolerance, Allspring Funds offers a wide variety of mutual funds spanning many asset classes and investment styles. Although diversification cannot guarantee an investment profit or prevent losses, we believe it can be an effective way to manage investment risk and potentially smooth out overall portfolio performance. We encourage investors to know their investments and to understand that appropriate levels of risk-taking may unlock opportunities.

Thank you for choosing to invest with Allspring Funds. We appreciate your confidence in us and remain committed to helping you meet your financial needs.

Sincerely,

Andrew Owen
President
Allspring Funds

“ The first quarter of 2024 closed with ongoing stock market momentum and a more muted sense of confidence in fixed income markets as investors adjusted to the prospect of greater-than-expected economic strength. ”

Notice to Shareholders

Beginning in July 2024, the Fund will be required by the Securities and Exchange Commission to send shareholders a paper copy of a new tailored shareholder report in place of the full shareholder report that you are now receiving. The tailored shareholder report will contain concise information about the Fund, including certain expense and performance information and fund statistics. If you wish to receive this new tailored shareholder report electronically, please follow the instructions on the back cover of this report.

Other information that is currently included in the shareholder report, such as the Fund's financial statements, will be available online and upon request, free of charge, in paper or electronic format.

Performance highlights

Investment objective	The Fund seeks long-term capital appreciation.
Manager	Allspring Funds Management, LLC
Subadviser	Allspring Global Investments, LLC
Portfolio managers	Michael T. Smith, CFA, Christopher J. Warner, CFA

AVERAGE ANNUAL TOTAL RETURNS (%) AS OF MARCH 31, 2024

	INCEPTION DATE	INCLUDING SALES CHARGE			EXCLUDING SALES CHARGE			EXPENSE RATIOS ¹ (%)	
		1 YEAR	5 YEAR	10 YEAR	1 YEAR	5 YEAR	10 YEAR	GROSS	NET ²

Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance shown without sales charges would be lower if sales charges were reflected. Current performance may be lower or higher than the performance data quoted, which assumes the reinvestment of dividends and capital gains. Current month-end performance is available on the Fund's website, allspringglobal.com.

Index returns do not include transaction costs associated with buying and selling securities, any mutual fund fees or expenses, or any taxes. It is not possible to invest directly in an index.

For Class A shares, the maximum front-end sales charge is 5.75%. For Class C shares, the maximum contingent deferred sales charge is 1.00%. Performance including a contingent deferred sales charge assumes the sales charge for the corresponding time period. Class R6, Administrator Class and Institutional Class shares are sold without a front-end sales charge or contingent deferred sales charge.

¹ Reflects the expense ratios as stated in the most recent prospectuses. The expense ratios shown are subject to change and may differ from the annualized expense ratios shown in the Financial Highlights of this report.

² The manager has contractually committed through January 31, 2025, to waive fees and/or reimburse expenses to the extent necessary to cap total annual fund operating expenses after fee waivers at 1.18% for Class A, 1.93% for Class C, 0.80% for Class R6, 1.10% for Administrator Class and 0.85% for Institutional Class. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense caps. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the caps may be terminated only with the approval of the Board of Trustees. Without these caps, the Fund's returns would have been lower. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectuses.

³ Historical performance shown for the Class R6 shares prior to their inception reflects the performance of the Institutional Class shares, and includes the higher expenses applicable to the Institutional Class shares. If these expenses had not been included, returns for the Class R6 shares would be higher.

⁴ The Russell 3000[®] Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization, which represents approximately 98% of the investable U.S. equity market. You cannot invest directly in an index.

⁵ The Russell Midcap[®] Growth Index measures the performance of those Russell Midcap companies with higher price/book ratios and higher forecasted growth values. The stocks are also members of the Russell 1000[®] Growth index. You cannot invest directly in an index.

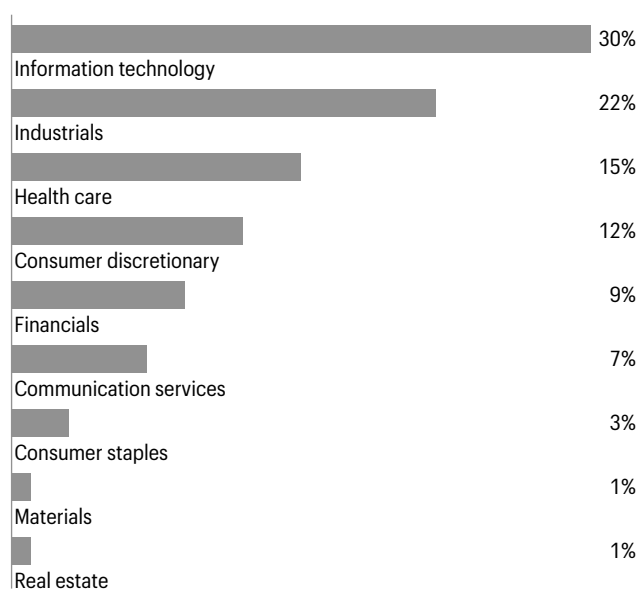

Investing involves risk, including the possible loss of principal. Stock values fluctuate in response to the activities of individual companies and general market and economic conditions. Smaller company stocks tend to be more volatile and less liquid than those of larger companies. Consult the Fund's prospectus for additional information on these and other risks.

CFA[®] and Chartered Financial Analyst[®] are trademarks owned by CFA Institute.

¹ Figures represent the percentage of the Fund's net assets. Holdings are subject to change and may have changed since the date specified.

SECTOR ALLOCATION AS OF MARCH 31, 2024¹

¹ Figures represent the percentage of the Fund's long-term investments. Allocations are subject to change and may have changed since the date specified.

Fund expenses

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments and contingent deferred sales charges (if any) on redemptions and (2) ongoing costs, including management fees, distribution (12b-1) and/or shareholder servicing fees, and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the six-month period and held for the entire period from October 1, 2023 to March 31, 2024.

Actual expenses

The "Actual" line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the "Actual" line under the heading entitled "Expenses paid during period" for your applicable class of shares to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The "Hypothetical" line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) and contingent deferred sales charges. Therefore, the "Hypothetical" line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	BEGINNING ACCOUNT VALUE 10-1-2023	ENDING ACCOUNT VALUE 3-31-2024	EXPENSES PAID DURING THE PERIOD ¹	ANNUALIZED NET EXPENSE RATIO
Class A				
Actual	\$ 1,000.00	\$ 1,270.44	\$ 6.66	1.18%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,019.00	\$ 5.92	1.18%
Class C				
Actual	\$ 1,000.00	\$ 1,265.49	\$10.87	1.93%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,015.27	\$ 9.67	1.93%
Class R6				
Actual	\$ 1,000.00	\$ 1,272.61	\$ 4.52	0.80%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,020.89	\$ 4.02	0.80%
Administrator Class				
Actual	\$ 1,000.00	\$ 1,270.84	\$ 6.21	1.10%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,019.39	\$ 5.52	1.10%
Institutional Class				
Actual	\$ 1,000.00	\$ 1,272.33	\$ 4.80	0.85%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,020.64	\$ 4.27	0.85%

¹ Expenses paid is equal to the annualized net expense ratio of each class multiplied by the average account value over the period, multiplied by 182 divided by 366 (to reflect the one-half-year period).

♣ The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.

∞ The rate represents the 7-day annualized yield at period end.

Abbreviations:

ADR American depository receipt

REIT Real estate investment trust

Investments in affiliates

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same investment manager. Transactions with issuers that were affiliates of the Fund at the end of the period were as follows:

	VALUE, BEGINNING OF PERIOD	PURCHASES	SALES PROCEEDS	NET REALIZED GAINS (LOSSES)	NET CHANGE IN UNREALIZED GAINS (LOSSES)	VALUE, END OF PERIOD	SHARES, END OF PERIOD	INCOME FROM AFFILIATED SECURITIES

Notes to financial statements

1. ORGANIZATION

Allspring Funds Trust (the "Trust"), a Delaware statutory trust organized on March 10, 1999, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*. These financial statements report on the Allspring Discovery Mid Cap Growth Fund (the "Fund") which is a diversified series of the Trust.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Equity securities and exchange-traded funds that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, LLC ("Allspring Funds Management"), which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management's process for determining the fair value of the portfolio of investments.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates. The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Dividend income is recognized on the ex-dividend date. Dividend income is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Interest earned on cash balances held at the custodian is recorded as interest income.

Distributions received from REIT investments may be characterized as ordinary income, capital gains, or a return of capital to the Fund based on information provided by the REIT. The proper characterization of REIT distributions is generally not known until after the end of each calendar year. As such, estimates may be used in reporting the character of income and distributions for financial statement purposes.

Distributions to shareholders

Distributions to shareholders from net investment income and any net realized gains are recorded on the ex-dividend date and paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. generally accepted accounting principles. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns, as applicable, for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of March 31, 2024, the aggregate cost of all investments for federal income tax purposes was \$479,885,279 and the unrealized gains (losses) consisted of:

Gross unrealized gains	\$218,713,430
Gross unrealized losses	(9,952,529)
Net unrealized gains	\$208,760,901

As of September 30, 2023, the Fund had a qualified late-year ordinary loss of \$3,285,305 which was recognized on the first day of the current fiscal year.

Class allocations

The separate classes of shares offered by the Fund differ principally in applicable sales charges, distribution, shareholder servicing, and administration fees. Class specific expenses are charged directly to that share class. Investment income, common fund-level expenses, and realized and unrealized gains (losses) on investments are allocated daily to each class of shares based on the relative proportion of net assets of each class.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of March 31, 2024:

	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL
Assets				
Investments in:				
Common stocks				
<i>Communication services</i>	\$ 49,918,429	\$0	\$0	\$ 49,918,429

<i>Investment companies</i>	3,842,270	0	0	3,842,270
Total assets	\$688,646,180	\$0	\$0	\$688,646,180

Additional sector, industry or geographic detail, if any, is included in the Portfolio of Investments.

At March 31, 2024, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Under the investment management agreement, Allspring Funds Management is responsible for, among other services, implementing the investment objectives and strategies of the Fund, supervising the subadviser and providing fund-level administrative services in connection with the Fund's operations. As compensation for its services under the investment management agreement, Allspring Funds Management is entitled to receive a management fee at the following annual rate based on the Fund's average daily net assets:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE
First \$500 million	0.750%
Next \$500 million	0.725
Next \$1 billion	0.700
Next \$2 billion	0.675
Next \$1 billion	0.650
Next \$5 billion	0.640
Next \$2 billion	0.630
Next \$4 billion	0.620
Over \$16 billion	0.610

For the six months ended March 31, 2024, the management fee was equivalent to an annual rate of 0.75% of the Fund's average daily net assets.

Allspring Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Allspring Funds Management. Allspring Global Investments, LLC, an affiliate of Allspring Funds Management and a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, is the subadviser to the Fund and is entitled to receive a fee from Allspring Funds Management at an annual rate starting at 0.45% and declining to 0.30% as the average daily net assets of the Fund increase.

Administration fees

Under a class-level administration agreement, Allspring Funds Management provides class-level administrative services to the Fund, which includes paying fees and expenses for services provided by the transfer agent, sub-transfer agents, omnibus account servicers and record-keepers. As compensation for its services under the class-level administration agreement, Allspring Funds Management receives an annual fee which is calculated based on the average daily net assets of each class as follows:

	CLASS-LEVEL ADMINISTRATION FEE
Class A	0.20%
Class C	0.20
Class R6	0.03
Administrator Class	0.13
Institutional Class	0.13

Waivers and/or expense reimbursements

Allspring Funds Management has contractually committed to waive and/or reimburse management and administration fees to the extent necessary to maintain certain net operating expense ratios for the Fund. When each class of the Fund has exceeded its expense cap, Allspring Funds Management will waive fees and/or reimburse expenses from fund-level expenses on a proportionate basis and then from class specific expenses. When only certain classes exceed their expense caps, waivers and/or reimbursements are applied against class specific expenses before fund-level expenses. Allspring Funds Management has contractually committed through January 31, 2025 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's expenses. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. As of March 31, 2024, the contractual caps are as follows:

EXPENSE RATIO CAPS

Class A	1.18%
Class C	1.93
Class R6	0.80
Administrator Class	1.10
Institutional Class	0.85

Distribution fee

The Trust has adopted a distribution plan for Class C shares pursuant to Rule 12b-1 under the 1940 Act. A distribution fee is charged to Class C shares and paid to Allspring Funds Distributor, LLC (“Allspring Funds Distributor”), the principal underwriter, an affiliate of Allspring Funds Management, at an annual rate up to 0.75% of the average daily net assets of Class C shares.

In addition, Allspring Funds Distributor is entitled to receive the front-end sales charge from the purchase of Class A shares and a contingent deferred sales charge on the redemption of certain Class A shares. Allspring Funds Distributor is also entitled to receive the contingent deferred sales charges from redemptions of Class C shares. For the six months ended March 31, 2024, Allspring Funds Distributor received \$521 from the sale of Class A shares. No contingent deferred sales charges were incurred by Class A and Class C shares for the six months ended March 31, 2024.

Shareholder servicing fees

The Trust has entered into contracts with one or more shareholder servicing agents, whereby Class A, Class C and Administrator Class are charged a fee at an annual rate up to 0.25% of the average daily net assets of each respective class. A portion of these total shareholder servicing fees were paid to affiliates of the Fund.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund did not have any interfund transactions during the six months ended March 31, 2024.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the six months ended March 31, 2024 were \$175,060,888 and \$213,282,493, respectively.

6. BANK BORROWINGS

The Trust (excluding the money market funds), Allspring Master Trust and Allspring Variable Trust are parties to a \$350,000,000 revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on a borrowing rate equal to the higher of the Federal Funds rate or the overnight bank funding rate in effect on that day plus a spread. In addition, an annual commitment fee based on the unused balance is allocated to each participating fund.

For the six months ended March 31, 2024, there were no borrowings by the Fund under the agreement.

7. CONCENTRATION RISKS

As of the end of the period, the Fund concentrated its portfolio of investments in the information technology sector. A fund that invests a substantial portion of its assets in any sector may be more affected by changes in that sector than would be a fund whose investments are not heavily weighted in any sector.

8. INDEMNIFICATION

Under the Fund’s organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund’s organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund’s maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

Other information

Proxy voting information

A description of the policies and procedures used to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-866-259-3305**, visiting our website at **allspringglobal.com**, or visiting the SEC website at sec.gov. Information regarding how the proxies related to portfolio securities were voted during the most recent 12-month period ended June 30 is available on the website at **allspringglobal.com** or by visiting the SEC website at sec.gov.

Quarterly portfolio holdings information

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the SEC website at sec.gov.

Board of trustees and officers

Each of the Trustees and Officers listed in the table below acts in identical capacities for each fund in the Allspring family of funds, which consists of 100 mutual funds comprising the Allspring Funds Trust, Allspring Variable Trust, Allspring Master Trust and four closed-end funds (collectively the “Fund Complex”). This table should be read in conjunction with the Prospectus and the Statement of Additional Information[†]. The mailing address of each Trustee and Officer is 1415 Vantage Park Drive, 3rd Floor, Charlotte, NC 28203. Each Trustee and Officer serves an indefinite term, however, each Trustee serves such term until reaching the mandatory retirement age established by the Trustees.

Independent Trustees
