Allspring Global Investments disclaims any obligation to publicly update or revise any views expressed or forward-looking statements.

ANDREW OWEN President Allspring Funds

Dear Shareholder:

We are pleased to offer you this semi-annual report for the Allspring Global Long/Short Equity Fund for the six-month period that ended April 30, 2024. Globally, stocks and bonds had strongly positive returns for the period. However, markets were volatile as investors focused on persistently high inflation and the impact of aggressive central bank rate hikes. Riskier assets rallied as investors anticipated an end to the tight monetary policy.

For the period, U.S. stocks, based on the S&P 500 Index,1 returned 20.98%. International stocks, as measured by the MSCI ACWI ex USA Index (Net),2 gained 17.69% while the MSCI EM Index (Net) (USD),3 returned 15.40%. Among bond indexes, the Bloomberg U.S. Aggregate Bond Index⁴ advanced 4.97%, the Bloomberg Global Aggregate ex-USD Index (unhedged)⁵ gained 3.92%, the Bloomberg Municipal Bond Index⁶ returned 7.06%, and the ICE BofA U.S. High Yield Index⁷ gained 8.94%.

Investors remained focused on central bank monetary policies.

As the six-month period began in November, the market mood brightened as cooling inflation inspired confidence that central banks could hold off on further rate hikes. Overall annual inflation in the U.S. fell to 3.1% in November while 12-month inflation in the U.K. and the eurozone eased to 4.6% and 2.4%, respectively—far below their peak levels of mid-2022. Third quarter annualized U.S. GDP growth was raised to an estimated 5.2% while U.S. job totals rose by close to 200,000 in November, indicating a slight cooling of the labor market. All of this fresh evidence added to confidence for a U.S. soft economic landing, leading to a more buoyant mood heading into winter.

The broad year-end rally among stocks and bonds that began in November continued through December as investors became more confident that monetary policy would ease in 2024. Supporting the bubbly market mood were a series of reports confirming lower inflationary trends in the U.S. and Europe. During the period, it appeared more likely that the U.S. economy could achieve a soft landing, cooling enough to lower inflation without the pain of a recession. However, by year-end, an expectations gap developed. Capital markets priced in a total of 1.50 percentage points in federal funds rate cuts in 2024—twice as much as the three cuts of 0.25% hinted at by Fed officials.

The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

The Morgan Stanley Capital International (MSCI) All Country World Index (ACWI) ex USA Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of developed and emerging markets, excluding the U.S. Source: MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indexes or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. You cannot invest directly in an index.

The MSCI Emerging Markets (EM) Index (Net) (USD) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of emerging markets. You cannot invest directly in an index.

The Bloomberg U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment-grade, U.S.-dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities, and commercial mortgage-backed securities. You cannot invest directly in an index.

The Bloomberg Global Aggregate ex-USD Index (unhedged) is an unmanaged index that provides a broad-based measure of the global investment-grade fixed-income markets excluding the U.S.-dollar-denominated debt market. You cannot invest directly in an index.

The Bloomberg Municipal Bond Index is an unmanaged index composed of long-term tax-exempt bonds with a minimum credit rating of Baa. You cannot invest directly

The ICE BofA U.S. High Yield Index is a market-capitalization-weighted index of domestic and Yankee high yield bonds. The index tracks the performance of high yield securities traded in the U.S. bond market. Returns shown are net of transaction costs beginning on July 1, 2022. You cannot invest directly in an index. Copyright 2024. ICE Data Indices, LLC. All rights reserved.

Financial market performance was mixed in January 2024 as U.S. stocks had modest gains while non-U.S. equities, particularly those in emerging markets, and fixed income assets were held back by central bank pushback on market optimism over rate cuts. Overall, optimism was supported by hints of a soft landing for the U.S. economy. Key data included a surprisingly strong gain of 353,000 jobs in January, an unemployment rate of just 3.7%, and a rise of just 3.1% in the annual Consumer Price Index1 (CPI) in January. However, that resilience helped tone down expectations of a rate cut in March to a more likely second quarter initial move.

In February, stocks were supported by positive economic data and strong corporate earnings. However, fixed income investments were under pressure as resilient inflation curbed expectations on the timing of interest rate cuts. The S&P 500 Index had solid monthly gains along with emerging market equities, which benefited from a rebound in China.

The first quarter of 2024 closed with ongoing stock market momentum and a more muted sense of confidence in fixed income markets as investors adjusted to the prospect of greater-than-expected economic strength. On the flip side, expectations on the timing of an initial Fed rate cut were pushed back from March to June and then beyond. Additionally, the number of quarter-point rate cuts forecast by the market fell from six as projected in December 2023 to two to three cuts by fiscal period-end.

Markets retreated broadly in April as U.S. annual inflation continued to resist monetary policy efforts and expectations for its downward trajectory, with an April CPI reading of 3.4%. The timing of a Fed initial rate cut came into greater question in April. Not only was there less confidence regarding when a first cut would take place but also whether any rate reductions would occur at all in 2024. Market expectations continued to recede to a possible September Fed first cut. Meanwhile, eurozone annual inflation held steady in April at 2.4%. Developed market stocks and fixed income securities of all types were in the red for April.

Don't let short-term uncertainty derail long-term investment goals.

Periods of investment uncertainty can present challenges, but experience has taught us that maintaining long-term investment goals can be an effective way to plan for the future. To help you create a sound strategy based on your personal goals and risk tolerance, Allspring Funds offers a wide variety of mutual funds spanning many asset classes and investment styles. Although diversification cannot guarantee an investment profit or prevent losses, we believe it can be an effective way to manage investment risk and potentially smooth out overall portfolio performance. We encourage investors to know their investments and to understand that appropriate levels of risk-taking may unlock opportunities.

Thank you for choosing to invest with Allspring Funds. We appreciate your confidence in us and remain committed to helping you meet your financial needs. Sincerely,

Andrew Owen President Allspring Funds " The first quarter of 2024 closed with ongoing stock market momentum and a more muted sense of confidence in fixed income markets as investors adjusted to the prospect of greater-than-expected economic strength. "

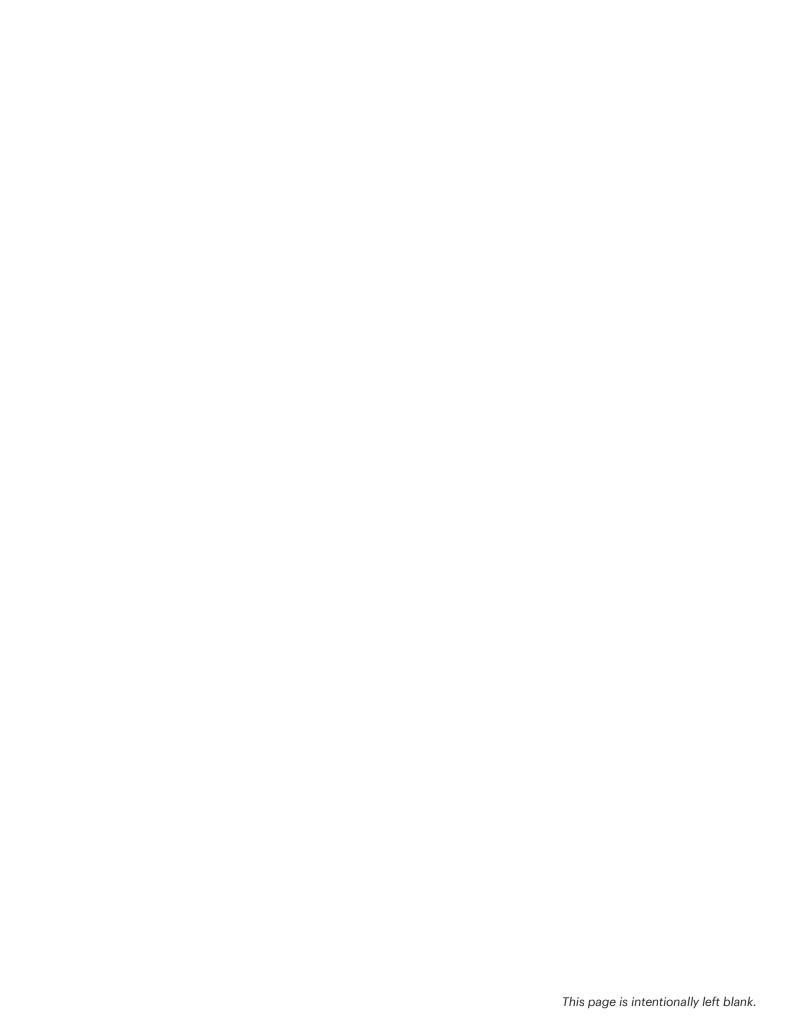

> For further information about your fund, contact your investment professional, visit our website at allspringglobal.com, or call us directly at 1-800-222-8222.

The Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services. You cannot invest directly in an index.

Notice to Shareholders

Beginning in July 2024, the Fund will be required by the Securities and Exchange Commission to send shareholders a paper copy of a new tailored shareholder report in place of the full shareholder report that you are now receiving. The tailored shareholder report will contain concise information about the Fund, including certain expense and performance information and fund statistics. If you wish to receive this new tailored shareholder report electronically, please follow the instructions on the back cover of this report.

Other information that is currently included in the shareholder report, such as the Fund's financial statements, will be available online and upon request, free of charge, in paper or electronic format.

Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance shown without sales charges would be lower if sales charges were reflected. Current performance may be lower or higher than the performance data quoted, which assumes the reinvestment of dividends and capital gains. Current month-end performance is available on the Fund's website, allspringglobal.com.

Index returns do not include transaction costs associated with buying and selling securities, any mutual fund fees or expenses, or any taxes. It is not possible to invest directly in an index.

For Class A shares, the maximum front-end sales charge is 5.75%. For Class C shares, the maximum contingent deferred sales charge is 1.00%. Performance including a contingent deferred sales charge assumes the sales charge for the corresponding time period. Class R6 and Institutional Class shares are sold without a front-end sales charge or contingent deferred sales charge.

- Reflects the expense ratios as stated in the most recent prospectuses, which include the impact of 0.02% in acquired fund fees and expenses. The expense ratios shown are subject to change and may differ from the annualized expense ratios shown in the Financial Highlights of this report, which do not include acquired fund fees and expenses.
- ² The manager has contractually committed through February 28, 2025, to waive fees and/or reimburse expenses to the extent necessary to cap total annual fund operating expenses after fee waivers at 1.72% for Class A, 2.47% for Class C, 1.30% for Class R6 and 1.40% for Institutional Class. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), expenses from dividends and interest on short positions, and extraordinary expenses are excluded from the expense caps. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the caps may be terminated only with the approval of the Board of Trustees. Without these caps, the Fund's returns would have been lower. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectuses.
- Historical performance shown for the Class A shares prior to December 16, 2022, is based on the performance of the Investor Class shares of the Fund's predecessor, 361 Global Long/Short Equity Fund (the "Predecessor Fund"), and for the period prior to December 12, 2014, is based on the performance of a predecessor account, the Analytic Global Long/Short Equity Fund, L.P., a limited partnership that was reorganized into the Predecessor Fund on December 12, 2014 (the "Predecessor Account"). Performance of the Predecessor Account reflects the higher expenses applicable to it and returns would have been higher if adjusted to reflect Predecessor Fund expenses. The Predecessor Account was not registered under the Investment Company Act of 1940 (the "1940 Act"), and was not subject to certain restrictions imposed by the 1940 Act. If the Predecessor Account had been registered under the 1940 Act, performance may have been adversely affected.
- ⁴ Historical performance for the Class C shares prior to their inception reflects the performance of the Class A shares and is not adjusted to reflect the higher expenses applicable to the Class C shares. If these expenses had been included, returns would be lower.
- Historical performance shown for the Class R6 shares prior to December 16, 2022 is based on the performance of Class Y shares of the Fund's predecessor, 361 Global Long/Short Equity Fund (the "Predecessor Fund"), and for the period prior to December 12, 2014, is based on the performance of a predecessor account, the Analytic Global Long/Short Equity Fund, L.P., a limited partnership that was reorganized into the Predecessor Fund on December 12, 2014 (the "Predecessor Account"). Performance of the Predecessor Account reflects the higher expenses applicable to it and returns would have been higher if adjusted to reflect Predecessor Fund expenses. The Predecessor Account was not registered under the Investment Company Act of 1940 (the "1940 Act"), and was not subject to certain restrictions imposed by the 1940 Act. If the Predecessor Account had been registered under the 1940 Act, performance may have been adversely affected.

Investing involves risk, including the possible loss of principal. Stock values fluctuate in response to the activities of individual companies and general market and economic conditions. Foreign investments are especially volatile and can rise or fall dramatically due to differences in the political and economic conditions of the host country. Short selling is generally considered speculative, has the potential for unlimited loss, and may involve leverage. Consult the Fund's prospectus for additional information on these and other risks.

Fund expenses

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments and contingent deferred sales charges (if any) on redemptions and (2) ongoing costs, including management fees, distribution (12b-1) and/or shareholder servicing fees, and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the six-month period and held for the entire period from November 1, 2023 to April 30, 2024.

Actual expenses

The "Actual" line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the "Actual" line under the heading entitled "Expenses paid during period" for your applicable class of shares to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The "Hypothetical" line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) and contingent deferred sales charges. Therefore, the "Hypothetical" line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Class A	BEGINNING ACCOUNT VALUE 11-1-2023	ENDING ACCOUNT VALUE 4-30-2024	EXPENSES PAID DURING THE PERIOD ¹	ANNUALIZED NET EXPENSE RATIO
Actual	\$1,000.00	\$ 1,121.12	\$13.45	2.55%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,012.18	\$12.76	2.55%
Class C				
Actual	\$1,000.00	\$1,121.63	\$14.08	2.67%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,011.59	\$13.35	2.67%
Class R6				
Actual	\$1,000.00	\$1,124.48	\$11.25	2.13%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,014.27	\$10.67	2.13%
Institutional Class				
Actual	\$1,000.00	\$1,124.18	\$11.72	2.22%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,013.82	\$11.12	2.22%

¹ Expenses paid is equal to the annualized net expense ratio of each class multiplied by the average account value over the period, multiplied by 182 divided by 366 (to reflect the one-half-year period).

Non-income-earning security
All or a portion of this security is segregated as collateral for securities sold short.

¹⁴⁴A The security may be resold in transactions exempt from registration, normally to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of

The security is fair valued in accordance with procedures approved by the Board of Trustees.

The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.

The rate represents the 7-day annualized yield at period end. ∞

Abbreviations:

REIT Real estate investment trust

Investments in affiliates

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same investment manager. Transactions with issuers that were affiliates of the Fund at the end of the period were as follows:

	VALUE, BEGINNING OF PERIOD	PURCHASES	SALES PROCEEDS	NET REALIZED GAINS (LOSSES)	NET CHANGE IN UNREALIZED GAINS (LOSSES)	VALUE, END OF PERIOD	SHARES, END OF PERIOD	INCOME FROM AFFILIATED SECURITIES

Notes to financial statements

1. ORGANIZATION

Allspring Funds Trust (the "Trust"), a Delaware statutory trust organized on March 10, 1999, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, Financial Services - Investment Companies. These financial statements report on the Allspring Global Long/Short Equity Fund (the "Fund") which is a diversified series of the Trust.

After the close of business on December 16, 2022, the net assets of 361 Global Long/Short Equity Fund (the "Predecessor Fund") were acquired by the Fund, which was created to receive the net assets of the Predecessor Fund, in an exchange for shares of the Fund. Investor Class, Class Y and Class I shares of the Predecessor Fund received Class A, Class R6 and Institutional Class shares, respectively, of the Fund in the transaction. Since the Predecessor Fund contributed all of the net assets and shareholders to the newly created Allspring fund, the accounting and performance history of the Predecessor Fund has been carried forward in the financial statements contained herein.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Equity securities and exchange-traded funds that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

The values of securities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee at Allspring Funds Management, LLC ("Allspring Funds Management").

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign securities are traded, but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of such securities, then fair value pricing procedures implemented by Allspring Funds Management are applied. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Foreign securities that are fair valued under these procedures are categorized as Level 2 and the application of these procedures may result in transfers between Level 1 and Level 2. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in net asset values that are higher or lower than net asset values based on the last reported sales price or latest quoted bid price. On April 30, 2024, such fair value pricing was used in pricing certain foreign securities.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management's process for determining the fair value of the portfolio of investments.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates. The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

Short sales

The Fund may sell a security it does not own in anticipation of a decline in the market value of that security (short sale). When the Fund makes a short sale, it must borrow the security sold short and deliver it to the buyer. The Fund is then obligated to replace the security borrowed by purchasing the security at the market price at the time of replacement.

The Fund records the proceeds as a liability which is marked-to-market daily based upon guotations from an independent pricing service or an independent broker-dealer and any change in value is recorded as an unrealized gain or loss. Any interest or dividends accrued on such borrowed securities during the period of the loan are recorded as an expense on the Statement of Operations. To borrow the security, the Fund may be required to pay a premium, which would decrease the proceeds of the security sold. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the closing of a short sale if the market price at the closing is less than or greater than, respectively, the proceeds originally received. Until the short sale is closed or the borrowed security is replaced, the Fund maintains a segregated account of cash or liquid securities, the dollar value of which is at least equal to the market value of the security at the time of the short sale.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Dividend income is recognized on the ex-dividend date, except for certain dividends from foreign securities, which are recorded as soon as the custodian verifies the ex-dividend date. Dividend income is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Interest earned on cash balances held at the custodian is recorded as interest income.

Distributions received from REIT investments may be characterized as ordinary income, capital gains, or a return of capital to the Fund based on information provided by the REIT. The proper characterization of REIT distributions is generally not known until after the end of each calendar year. As such, estimates may be used in reporting the character of income and distributions for financial statement purposes.

Distributions to shareholders

Distributions to shareholders from net investment income and any net realized gains are recorded on the ex-dividend date and paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. generally accepted accounting principles. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns, as applicable, for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of April 30, 2024, the aggregate cost of all investments for federal income tax purposes was \$349,120,890 and the unrealized gains (losses) consisted

Gross unrealized gains \$ 71,233,240 Gross unrealized losses (31,543,939)

Net unrealized gains \$ 39,689,301

As of October 31, 2023, the Fund had capital loss carryforwards which consisted of \$18,699,103 in short-term capital losses.

Class allocations

The separate classes of shares offered by the Fund differ principally in applicable sales charges, distribution, shareholder servicing, and administration fees. Class specific expenses are charged directly to that share class. Investment income and expense, common fund-level expenses, and realized and unrealized gains (losses) on investments are allocated daily to each class of shares based on the relative proportion of net assets of each class.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of April 30, 2024:

Numer Nume		QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL

Additional sector, industry or geographic detail, if any, is included in the Portfolio of Investments.

At April 30, 2024, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Under the investment management agreement, Allspring Funds Management is responsible for, among other services, implementing the investment objectives and strategies of the Fund, supervising the subadviser and providing fund-level administrative services in connection with the Fund's operations. As compensation for its services under the investment management agreement, Allspring Funds Management is entitled to receive a management fee at the following annual rate based on the Fund's average daily net assets:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE
First \$1 billion	1.250%
Next \$4 billion	1.225
Over \$5 billion	1.200

For the six months ended April 30, 2024, the management fee was equivalent to an annual rate of 1.25% of the Fund's average daily net assets.

Allspring Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Allspring Funds Management. Allspring Global Investments, LLC, an affiliate of Allspring Funds Management and a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, is the subadviser to the Fund and is entitled to receive a fee from Allspring Funds Management at an annual rate starting at 0.8125% and declining to 0.625% as the average daily net assets of the Fund increase.

Administration fees

Under a class-level administration agreement, Allspring Funds Management provides class-level administrative services to the Fund, which includes paying fees and expenses for services provided by the transfer agent, sub-transfer agents, omnibus account servicers and record-keepers. As compensation for its services under the class-level administration agreement, Allspring Funds Management receives an annual fee which is calculated based on the average daily net assets of each class as follows:

	CLASS-LEVEL ADMINISTRATION FEE
Class A	0.20%
Class C Class R6	0.20
Class R6	0.03
Institutional Class	0.13

Waivers and/or expense reimbursements

Allspring Funds Management has contractually committed to waive and/or reimburse management and administration fees to the extent necessary to maintain certain net operating expense ratios for the Fund. When each class of the Fund has exceeded its expense cap, Allspring Funds Management will waive fees and/or reimburse expenses from fund-level expenses on a proportionate basis and then from class specific expenses. When only certain classes exceed their expense caps, waivers and/or reimbursements are applied against class specific expenses before fund-level expenses. Allspring Funds Management has contractually committed through February 28, 2025 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's expenses. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. As of April 30, 2024, excluding expenses from dividends on securities sold short and interest expense, the contractual caps are as follows:

	EXPENSE RATIO CAPS
Class A	1.72%
Class C	2.47
Class A Class C Class R6	1.30
Institutional Class	1.40

Distribution fees

The Trust has adopted a distribution plan for Class C shares pursuant to Rule 12b-1 under the 1940 Act. A distribution fee is charged to Class C shares and paid to Allspring Funds Distributor, LLC ("Allspring Funds Distributor"), the principal underwriter, an affiliate of Allspring Funds Management, at an annual rate up to 0.75% of the average daily net assets of Class C shares.

In addition, Allspring Funds Distributor is entitled to receive the front-end sales charge from the purchase of Class A shares and a contingent deferred sales charge on the redemption of certain Class A shares. Allspring Funds Distributor is also entitled to receive the contingent deferred sales charges

from redemptions of Class C shares. Allspring Funds Distributor did not receive any front-end or contingent deferred sales charges from Class A or Class C shares for the six months ended April 30, 2024.

Shareholder servicing fees

The Trust has entered into contracts with one or more shareholder servicing agents, whereby Class A and Class C are charged a fee at an annual rate up to 0.25% of the average daily net assets of each respective class. A portion of these total shareholder servicing fees were paid to affiliates of the Fund.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund did not have any interfund transactions during the six months ended April 30, 2024.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the six months ended April 30, 2024 were \$722,284,460 and \$799,492,772, respectively.

6. BORROWINGS

The Trust (excluding the money market funds), Allspring Master Trust and Allspring Variable Trust are parties to a \$350,000,000 revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on borrowing rate equal to the higher of the Federal Funds rate or the overnight bank funding rate in effect on that day plus a spread. In addition, an annual commitment fee based on the unused balance is allocated to each participating fund. For the six months ended April 30, 2024, there were no borrowings by the Fund under this agreement.

In an agreement with a prime broker, the Fund purchased or borrowed securities on margin and was charged interest based on a borrowing rate equal to the Federal Funds rate plus a spread. During the six months ended April 30, 2024, the Fund had average borrowings outstanding of \$52,839,440 at a rate of 4.20% and recorded interest in the amount of \$1,104,525, which represents 0.45% of its average daily net assets.

7. INDEMNIFICATION

Under the Fund's organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund's organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

Other information

Proxy voting information

A description of the policies and procedures used to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling 1-866-259-3305, visiting our website at allspringglobal.com, or visiting the SEC website at sec.gov. Information regarding how the proxies related to portfolio securities were voted during the most recent 12-month period ended June 30 is available on the website at allspringglobal.com or by visiting the SEC website at sec.gov.

Quarterly portfolio holdings information

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the SEC website at sec.gov.

Board of trustees and officers

Each of the Trustees and Officers listed in the table below acts in identical capacities for each fund in the Allspring family of funds, which consists of 99 mutual funds comprising the Allspring Funds Trust, Allspring Variable Trust, Allspring Master Trust and four closed-end funds (collectively the "Fund Complex"). This table should be read in conjunction with the Prospectus and the Statement of Additional Information*. The mailing address of each Trustee and Officer is 1415 Vantage Park Drive, 3rd Floor, Charlotte, NC 28203. Each Trustee and Officer serves an indefinite term, however, each Trustee serves such term until reaching the mandatory retirement age established by the Trustees.

Independent Trustees

NAME AND YEAR OF BIRTH	POSITION HELD AND LENGTH OF SERVICE**	PRINCIPAL OCCUPATIONS DURING PAST FIVE YEARS OR LONGER	CURRENT OTHER PUBLIC COMPANY OR INVESTMENT COMPANY DIRECTORSHIPS
WILLIAM R. EBSWORTH (Born 1957)	Trustee, since 2015	Retired.
