

# Allspring National Tax-Free Money Market Fund

Class/Ticker: Service Class - MMIXX

[Link to Prospectus](#)

[Link to SAI](#)

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, reports to shareholders and other information about the Fund online at [allspringglobal.com/reports](http://allspringglobal.com/reports). You can also get information at no cost by calling 1-800-222-8222, or by sending an email request to [fundliterature@allspring-global.com](mailto:fundliterature@allspring-global.com). The current prospectus ("Prospectus") and statement of additional information ("SAI"), dated June 1, 2024, as supplemented from time to time, are incorporated by reference into this summary prospectus. The Fund's SAI may be obtained, free of charge, in the same manner as the Prospectus.

## Investment Objective

The Fund seeks current income exempt from federal income tax, while preserving capital and liquidity.

## Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy, hold and sell shares of the Fund.

### Shareholder Fees (fees paid directly from your investment)

Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None

### Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)<sup>1</sup>

Management Fees	0.15%
Distribution (12b-1) Fees	0.00%
Other Expenses	0.39%
<b>Total Annual Fund Operating Expenses</b>	<b>0.54%</b>
Fee Waivers	(0.09)%
<b>Total Annual Fund Operating Expenses After Fee Waivers<sup>2</sup></b>	<b>0.45%</b>

1. Expenses have been adjusted as necessary from amounts incurred during the Fund's most recent fiscal year to reflect current fees and expenses.

2. The Manager has contractually committed through May 31, 2025, to waive fees and/or reimburse expenses to the extent necessary to cap Total Annual Fund Operating Expenses After Fee Waivers at 0.45% for Service Class. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense cap. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. The Manager and/or its affiliates may also voluntarily waive all or a portion of any fees to which they are entitled and/or reimburse certain expenses as they may determine from time to time.

## Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that fees and expenses remain the same as in the tables above. To the extent that the Manager is waiving fees or reimbursing expenses, the example assumes that such waiver or reimbursement will only be in place through the date noted above. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

After:	
1 Year	\$46
3 Years	\$164
5 Years	\$293
10 Years	\$668

## Principal Investment Strategies

Under normal circumstances, we invest:

- exclusively in high-quality, short-term, U.S. dollar-denominated money market instruments; and
- at least 80% of the Fund's net assets are invested in municipal obligations that pay interest exempt from federal income tax and federal alternative minimum tax ("AMT").

We actively manage a portfolio of high-quality, short-term municipal obligations that are issued by or on behalf of states, territories and possessions of the U.S. or their political subdivisions or financing authorities. These investments may have fixed, floating, or variable rates of interest.

We invest principally in municipal obligations that pay interest exempt from federal income tax and federal AMT. The Fund attempts to invest exclusively in these securities. However, the Fund may invest up to 20% of its net assets in high quality, short-term money market instruments that pay interest subject to federal income tax and/or federal AMT.

Our security selection is based on several factors, including credit quality, yield and maturity, while taking into account the Fund's overall level of liquidity and weighted average maturity. We will only purchase securities that we have determined present minimal credit risk.

## Principal Investment Risks

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon sale of your shares. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress. The Fund is primarily subject to the risks briefly summarized below.

**Market Risk.** The values of, and/or the income generated by, securities held by the Fund may decline due to general market conditions or other factors, including those directly involving the issuers of such securities. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic developments. Different sectors of the market and different security types may react differently to such developments.

**Money Market Fund Risk.** The Fund's yield will change based on changes in interest rates and other market conditions. Because the Fund invests in short-term instruments, the Fund's dividend yields are expected to be low when short-term market interest rates are low, and there is no guarantee that the Fund will not have a negative yield.

**Debt Securities Risk.** Debt securities are subject to credit risk and interest rate risk. Credit risk is the possibility that the issuer or guarantor of a debt security may be unable, or perceived to be unable or unwilling, to pay interest or repay principal when they become due. In these instances, the value of an investment could decline and the Fund could lose money. Credit risk increases as an issuer's credit quality or financial strength declines. Interest rate risk is the possibility that interest rates will change over time. When interest rates rise, the value of debt securities tends to fall. The longer the terms of the debt securities held by a Fund, the more the Fund is subject to this risk. If interest rates decline, interest that the Fund is able to earn on its investments in debt securities may also decline, which could cause the Fund to reduce the dividends it pays to shareholders, but the value of those securities may increase. Very low or negative interest rates may magnify interest rate risk.

**Municipal Securities Risk.** Municipal securities may be fully or partially backed or enhanced by the taxing authority of a local government, by the current or anticipated revenues from a specific project or specific assets, or by the credit of, or liquidity enhancement provided by, a private issuer. Various types of municipal securities are often related in such a way that political, economic or business developments affecting one obligation could affect other municipal securities held by a Fund.

**Management Risk.** Investment decisions, techniques, analyses or models implemented by a Fund's manager or sub-adviser in seeking to achieve the Fund's investment objective may not produce expected returns, may cause the Fund's shares to lose value or may cause the Fund to underperform other funds with similar investment objectives.

## Performance

The following information provides some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year. Past performance is no guarantee of future results. Current month-end performance is available on the Fund's website at [allspringglobal.com](http://allspringglobal.com). To obtain a current 7-day yield for the Fund call toll-free 1-800-222-8222.

### Calendar Year Total Returns for Service Class as of 12/31 each year

<b>Minimum Additional Investment</b> Service Class: No Minimum	

## Tax Information

The Fund's distributions normally consist of exempt-interest dividends, which are generally not taxable to you for federal income tax purposes, but may be subject to federal AMT. A portion of the Fund's distributions may not qualify as exempt-interest dividends; such distributions will generally be taxable to you as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. However, subsequent withdrawals from such a tax advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific situation.

## Payments to Intermediaries

If you purchase a Fund through an intermediary, the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the intermediary and your financial professional to recommend the Fund over another investment. Consult your financial professional or visit your intermediary's website for more information.
